Printing Quote

Turnaround Times: www.printninja.com/turnaroundtimes

DDU Customers Please Note:

The following quote is Delivered Duty Unpaid (DDU). PrintNinja will arrange delivery to the listed shipping address. The buyer will be responsible for the payment of any duties, taxes, or other applicable fees associated with import to the destination country. These charges are assessed at the time of import and are not included in this quote. The prices shown on this quote are in USD.

Turnaround Times

Pre-Press: Electronic proofs take one full business day to generate after you submit your files. If you need to make changes to your files after that time, it will take us another business day each time you submit new files to generate a new proof. *For orders with physical proofing, proofs take approx. 2-3 weeks for delivery. Premium expedited shipping is included in your proof cost, which is our fastest shipping option. There is no way to expedite the production process on hard-copy proofs. Production begins once we have your approval on your electronic proof.

**Board Book Proofing and Custom proofing options will require additional production time. Please reach out to your account manager for a custom proof turnaround estimate.*

Production Time: Production time varies according to binding type, specialty options, and quantity:

Saddle Stitched – 1-2 weeks

Perfect Bound – 2-3 weeks

Casebound – 3-4 weeks

Wire or Spiral – 3-4 weeks

Board Books – 3-4 weeks

Please Note: All production times are estimates. Many variables affect turnaround time including quantity, specialty options, holidays, weather conditions, etc. Always contact your account manager concerning your deadline.

Standard Shipping: Standard-speed ocean shipping to the USA and Canada takes approximately 6-8 weeks from the time the order is shipped. Please note guaranteed delivery dates are not available as random customs inspections, international and domestic holidays, weather, and unpredictable port conditions can cause delays that are out of our control. Commercial/business address delivery or inside delivery may be available for an additional fee. Please reach out to your account manager if you would like to investigate these options.

Expedited Shipping: Expedited shipping takes approximately 7-10 days from the time the order is shipped. Premium Expedited service is available for an extra charge and can reduce the expedited shipping turnaround in most cases. Please speak to an account manager about adding in this service. Please note guaranteed delivery dates are not available as random customs inspections, international and domestic holidays, and severe weather can cause delays that are out of our control. For commercial/business address delivery, inside-delivery may be available for an additional fee - please reach out to your account manager if you would like to investigate this option.

Variance

All orders are subject to a 2% overrun / underrun / defect variance. Orders over 2500 units will cap off at 75 overrun / underrun / defect variance units.

Please Note:

Prices shown are in USD. DDU orders are subject to any applicable taxes and duties charged by the destination country. **Specialty options** and **large quantities** (over 3,000) may add up to a week or more to your production time. All production time quotes are estimates only. For more accurate production times for your exact project please contact customer service or your account manager.

For contractual terms of placing an order please see our website <https://www.printninja.com/about/terms>.

PrintNinja reserves the right to adjust shipping costs during the 90 day quote period if a change in import policies regarding international shipments goes into effect. Changes in tariffs will require you to update your shipping quote to reflect the new policies and subsequent shipping costs.

Full Container Shipping Policy: Due to rapidly changing fluctuations of freight shipping on full containers during peak shipping times, we cannot guarantee shipping pricing for 90 days on those shipments. Quotes that require a full container shipping quote will be bound to market shipping demands at the time of the shipment and will be requoted as necessary once the production of your project is complete and containers are booked for transport.

Shipping costs included in this quote presume normal delivery conditions. If your destination requires special instructions or equipment to make delivery, additional charges may apply. Please contact your account manager to detail any special requirements for non-standard delivery.

All orders are subject to a 2% overrun / underrun / defect variance. Orders over 2500 units will cap off at 75 overrun / underrun / defect variance units.
